International Classification of Financial Reporting Christopher Nobes 1992-01-01 With the growing integration of the international economy the international differences in financial reporting practices have never been so important in multinational business. Recent reforms in International Accounting Standards, combined with the continuing European harmonization, have placed this topic high on the current agenda of both researchers and of business analysts actively concerned with international accounting practice. This new, updated edition of Christopher Nobes' International Classification of Financial Reporting examines the causes and nature of the differences between financial reporting practices in different countries, charting all the many significant developments to have taken place through the 1980s. The relevant research published during this period is discussed, alongside the effects of the regulatory changes that have taken place. Improvements in the existing system of classification in financial reporting are proposed in the light of the accelerated process of harmonization currently taking place. The resulting volume is an indispensable source for academics and professionals in international accounting and for all who are engaged in the process of European harmonization.

Financial and Managerial Accounting John J Wild 2015-01-09 Enhancements in technology have changed how we live and learn. Working with learning resources across devices, whether smartphones, tablets, or laptop computers, empowers students to drive their own learning by putting increasingly intelligent technology into their hands. Whether the goal is to become an accountant, a businessperson, or simply an informed consumer of accounting information, Financial and Managerial Accounting has helped generations of students succeed. Its leading edge accounting content, paired with state-of-the-art technology, supports student learning and elevates understanding of key accounting principles. Financial and Managerial Accounting also delivers innovative technology to help student performance. Connect Accounting provides students with a media-rich eBook version of the textbook and offers instant grading and feedback for assignments that are completed online. Our system for completing exercise and problem material takes accounting content to the next level, delivering assessment material in a more intuitive, less restrictive format that adapts to the needs of today's students.

Growth Poles of the Global Economy: Emergence, Changes and Future Perspectives Elena G. Popkova 2019-08-03 The book presents the best contributions from the international scientific conference "Growth Poles of the Global Economy: Emergence, Changes and Future," which was organized by the Institute of Scientific Communications (Volgograd, Russia) together with the universities of Kyrgyzstan and various other cities in Russia. The 143 papers selected, focus on spatial and sectorial structures of the modern global economy according to the theory of growth poles. It is intended for representatives of the academic community: university and college staff developing study guides on socio-humanitarian disciplines in connection with the theory of growth poles, researchers, and undergraduates, masters, and postgraduates who are interested in the recent inventions and developments in the field. It is also a valuable resource for expert practitioners managing entrepreneurial structures in the existing and prospective growth poles of the global economy as well as those at international institutes that regulate growth poles. The first part of the book investigates the factors and conditions affecting the emergence of the growth poles of the modern global economy. The second part then discusses transformation processes in the traditional growth poles of the global economy under the influence of the technological progress. The third part examines how social factors affect the formation of new growth poles of the modern global economy. Lastly, the fourth part offers perspectives on the future growth of the global economy on the basis of the digital economy and Industry 4.0.

Canadian Books in Print Marian Butler 2002-02 CBIP is the complete reference and buying guide to English-language Canadian books currently in print; consequently, the Author and Title Index, Subject Index and microfiche editions are indispensable to the book profession. With submissions from both small and large publishers, CBIP provides access to titles not listed anywhere else. Containing more than 48,000 titles, of which approximately 4,000 have a 2001 imprint, the Author and Title Index is extensively cross-referenced. The Subject Index lists the titles under 800 different subject categories. Both books offer the most complete directory of Canadian publishers available, listing the names and ISBN prefixes, as well as the street, e-mail and web addresses of more than 4,850 houses. The quarterly microfiche service provides updated information in April, July and October. CBIP is constantly referred to by order librarians, booksellers, researchers, and all those involved in book acquisition. In addition, CBIP is an invaluable record of the vast wealth of publishing and writing activity in the scientific, literary, academic and arts communities across Canada. A quarterly subscription service including the annual Author and Title Index (March 2001) plus quarterly microfiche updates (April, July, and October 2001) is also available.
