Het meten van de wereld Daniel Kehlmann 2010-04-21 Het meten van de wereld, een filosofische avonturenroman over het leven van twee genieën, is een geraffineerd spel met feit en fictie, en veel humor. In Het meten van de wereld pakken twee mannen, tegen het einde van de achttiende eeuw, onafhankelijk van elkaar, het absurde plan op om de wereld op te meten. De ene, Alexander von Humboldt, baant zich een weg door jungle en woestijn, vaart over de Orinoco, test gif uit op zichzelf, kruipt in de diepste spelonken, beklimt vulkanen en ontmoet kannibalen. De andere, de wiskundige en astronoom Carl Friedrich Gauß, die niet zonder vrouwen kan leven maar zelfs in zijn huwelijksnacht uit bed springt om een formule te noteren, verkrijgt dezelfde meetresultaten, al verlaat hij zelden zijn geboorteplaats. Oud, beroemd en ook een beetje zonderling geworden, ontmoeten ze elkaar in 1828 op een conferentie in Berlijn. Gauß is nog amper uit zijn koets gestegen, of het bekvechten neemt een aanvang.

Reflective practice Sicora, Alessandro 2017-03-08 What is a mistake in social work and how can we turn it into a positive learning experience? Simply going over the events of the day is often not enough and can become overwhelming. Learning from professional errors is, however, vital for successful reflective practice. This important book presents a theoretical framework that underpins this learning, along with a series of strategies for social workers to use either by themselves or as part of a group. These include creating questions and narratives to enhance learning, assertive techniques for receiving and offering criticism and organisational learning from mistakes. With plenty of practice examples and questions for reflection, this is essential reading for both social work students, and practitioners and managers at all stages of their career.

Het achterhuis Anne Frank 2009-10-31 Anne Frank hield van 12 juni 1942 tot 1 augustus 1944 een dagboek bij. Zij schreef haar brieven alleen voor zichzelf, tot ze in de lente van 1944 op radio Oranje de minister van Onderwijs, Kunsten en Wetenschappen in ballingschap, Bolkestein, hoorde spreken. Hij zei dat na de oorlog alle getuigenissen van het lijden van het Nederlandse volk onder de Duitse bezetting verzameld en openbaar moesten worden gemaakt. Als voorbeeld noemde hij onder andere dagboeken. Onder de indruk van deze redevoering besloot Anne Frank na de oorlog een boek te publiceren. Haar dagboek zou daarvoor als basis dienen. In maart 1945 stierf Anne Frank op vijftienjarige leeftijd in het concentratiekamp Bergen-Belsen. De enige overlevende van de familie, Otto Frank, zorgde ervoor dat het dagboek van zijn dochter toch gepubliceerd werd. In 1947 verscheen Het Achterhuis. Het is sindsdien een van de meest gelezen boeken ter wereld. Het is in meer dan dertig landen verschenen en er zijn meer dan zestien miljoen exemplaren van verkocht. "Eén enkele Anne Frank ontroert ons meer dan de ontelbaren die net zo leden als zij, maar wier beeld in de schaduw is gebleven. Misschien moet dat ook zo zijn: als we het leed van alle mensen moesten en konden meelijden, zouden we niet kunnen leven." Primo Levi

European Constitutional Courts towards Data Retention Laws Marek Zubik 2020-10-30 The book analyses the impact the jurisprudence of the constitutional courts of EU Member States and the Court of Justice of the European Union has had on the perception of freedom of communications in the digital era with respect to these courts' judgments regarding regulating storage and access to telecommunications data (known as telecommunications data retention) from 2008 to 2017. To do so, it examines

the jurisprudence of the constitutional courts of Austria, Bulgaria, Cyprus, Czech Republic, Ireland, Germany, Poland, Portugal, Romania, Slovenia, and Slovakia, i.e. those courts that have already ruled on domestic provisions regulating telecommunications data retention. Further, it investigates the judgments of the Court of Justice of European Union regarding directive 2006/24/EC regulating telecommunications data retention along with relevant jurisprudence of the European Court of Human Rights. As such, the book provides a comparative study of jurisprudence and national measures to implement the Data Retention Directive. Moreover, the book discusses whether our current understanding of protection of freedom of communications guaranteed by the constitutions of EU member states and the EU Charter of Fundamental Rights, which was developed in the era of analogue communications, remains accurate in the era of digital technologies and mass surveillance (simultaneously applied by states and private corporations). In this context, the book reconstructs constitutional standards that currently apply in the EU towards data retention. This book presents a unique comparative analysis of all judgments concerning Directive 2006/24/EC, which can be used in the legislative process on the EU forum aimed at introducing new principles of data retention and by constitutional courts in the context of comparative argumentation.
